Spring 2018 Recycle Drive

The event first began with a tremendous effort from the State to remove bulky waste items from all over the airport grounds and ended with waste collection on Wednesday April 25th at the former Northwest Cargo parking lot. Despite the lot being used by a construction project for staging and parking, the team worked diligently to remove the waste in a timely manner. Special thanks go out to the DOT-A Oahu District Maintenance Baseyard team who brought 14 staff and a forklift to the event to help unload the waste. Additional thanks go to the hauler 1-800-GOT-JUNK, who brought 3 trucks and 5 staff to haul the waste away, one truckload at a time.
