

How to use the terminal map

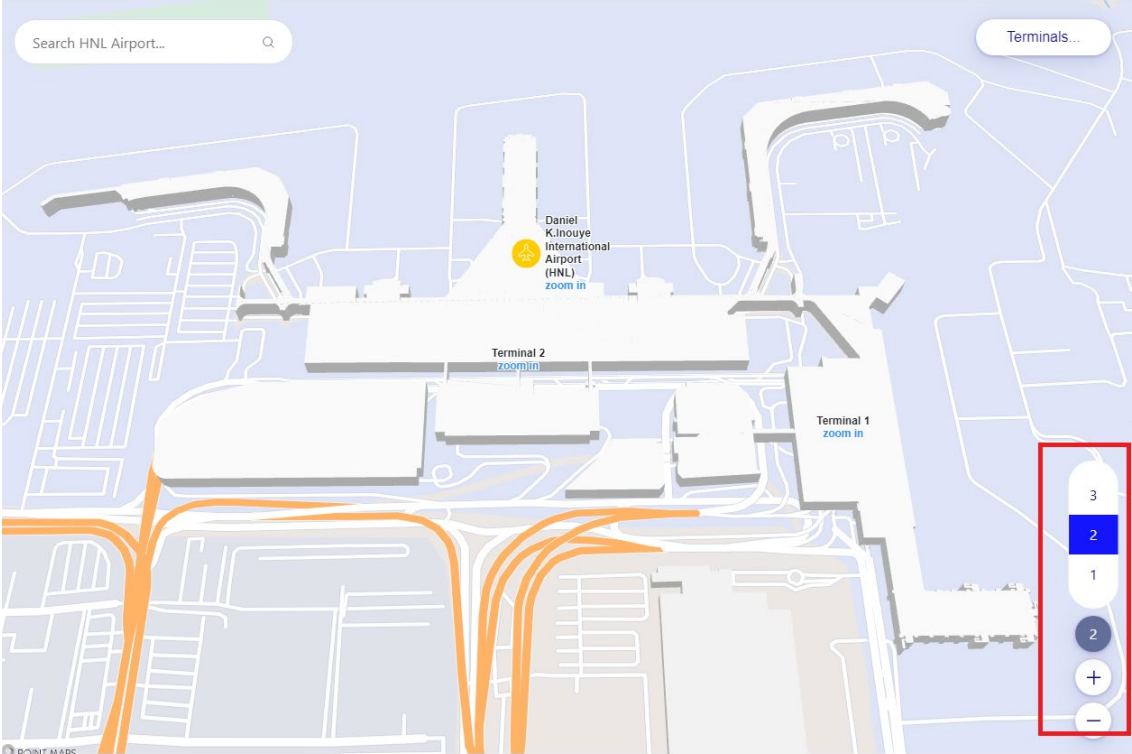

From the main view, scroll to zoom into the map.

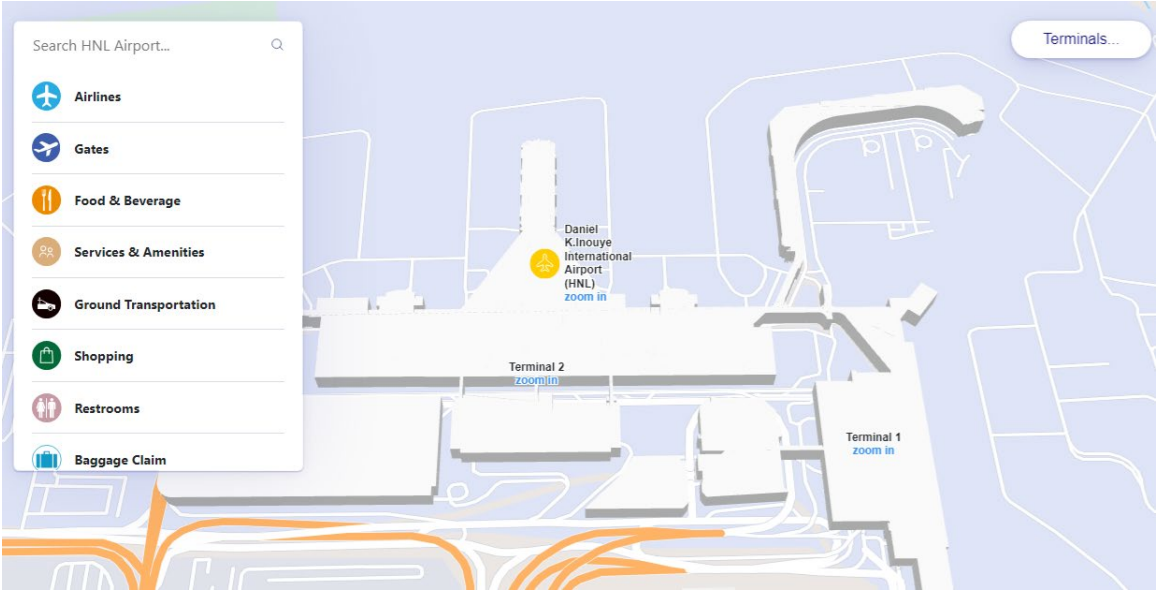

Use the upper right Terminal button to switch map view between Terminals

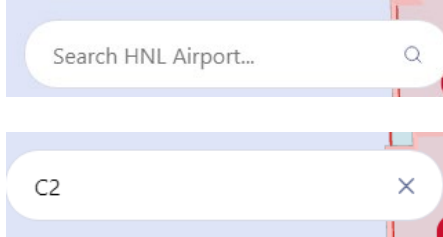

Use the buttons at the lower right to switch between Floors and to zoom in (+) and zoom out (-)

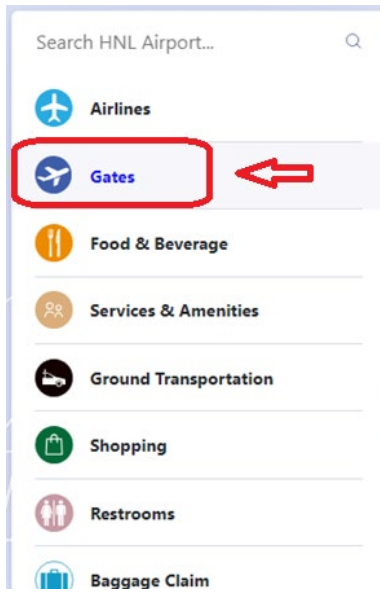

Use the Search bar to locate your Points of Interest. You may scroll through the list or type in your search criteria.

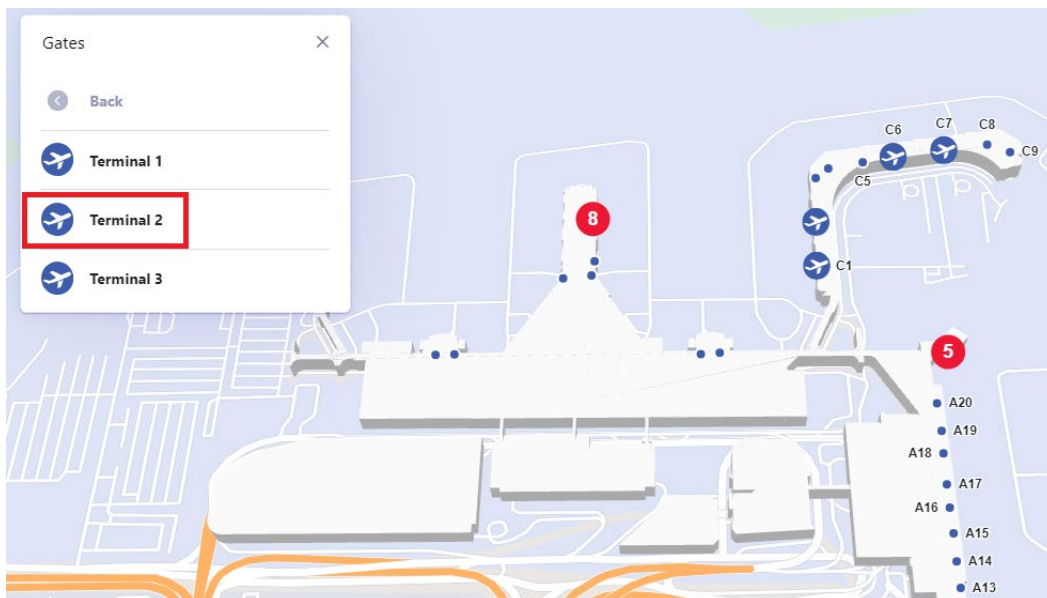

When you locate your Point of Interest (POI), you can also prompt to get directions to the POI. For example, locate Gate C2 by typing in C2 in the search bar and the map will zoom in to Gate C2

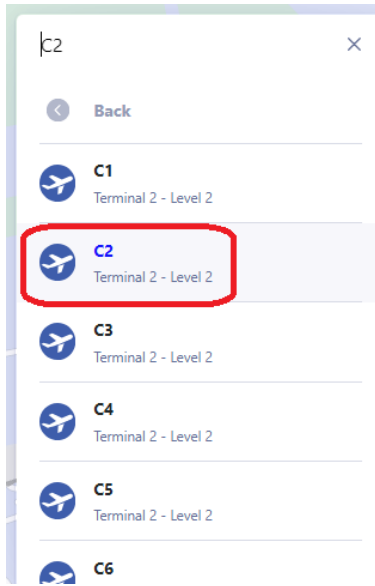

Or select Gates below.

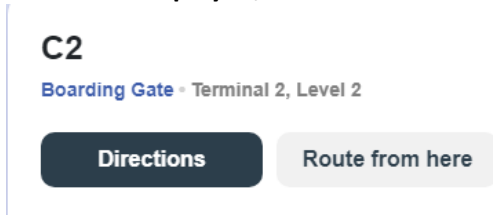

Then Select Terminal 2

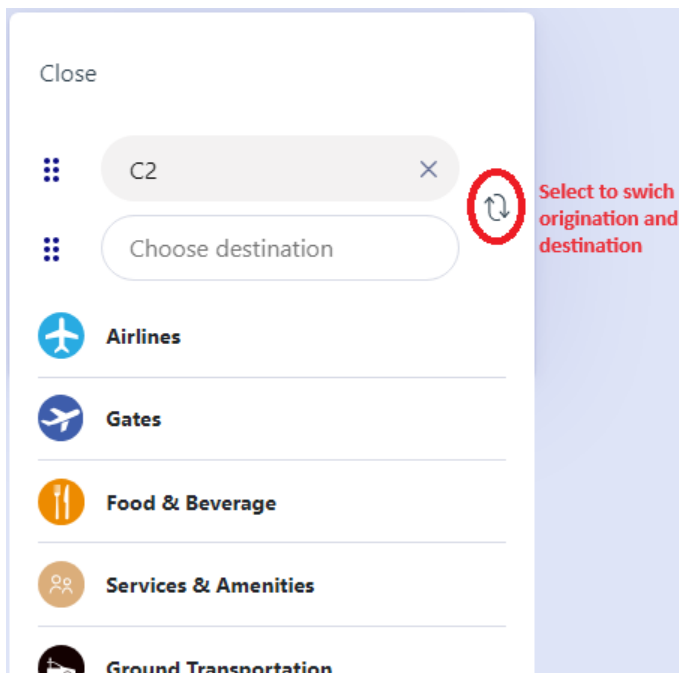

Scroll and select C2

Once C2 is displayed, select Directions or Route from here to begin your wayfinding experience.

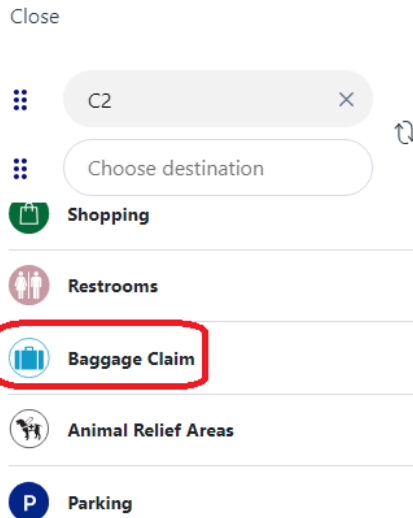

Next select the destination or where you want directions from. Scroll down the Points of Interest list or type in your choice.

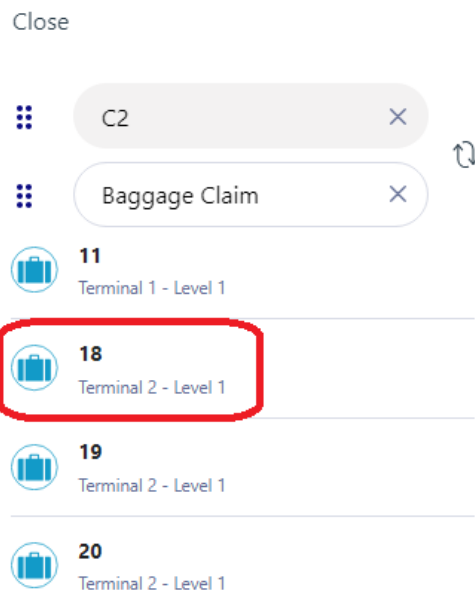

Select to switch origination and destination

For example: Choose destination to Baggage Claim number 18. Scroll down list and select Baggage Claim

Scroll down Baggage Claim numbers to locate and select 18.

Select Start when ready. The route will appear with an estimate of walking time. Select the forward arrow to obtain more information about the route.
