

Airport Cleanup Event Summary

Clean, Green and Refresh

Daniel K. Inouye International Airport

FALL 2024

Goal: Clean and refresh airport

DOT sponsored event accepted bulky furniture, appliances, air conditioners, paper, plastic, electronics, tires and other difficult to dispose of items.

Waste collected is responsibly disposed of by re-use, recycle, H-Power and if necessary landfill.

The event saves tenants thousands of dollars in disposal costs annually.

Special thanks go out to the DOT Oahu District Maintenance Baseyard team who provided staff and a forklift to the event to help unload the waste.

Additional thanks go to the haulers West Oahu Aggregate and First Onsite, who hauled the waste away, leaving the airport cleaner than before.

Estimated Materials

90

cubic yards of metals

90

cubic yards
mixed waste collected

20

refrigerators & AC's

45

cubic yards
electronics
