How to use the terminal map
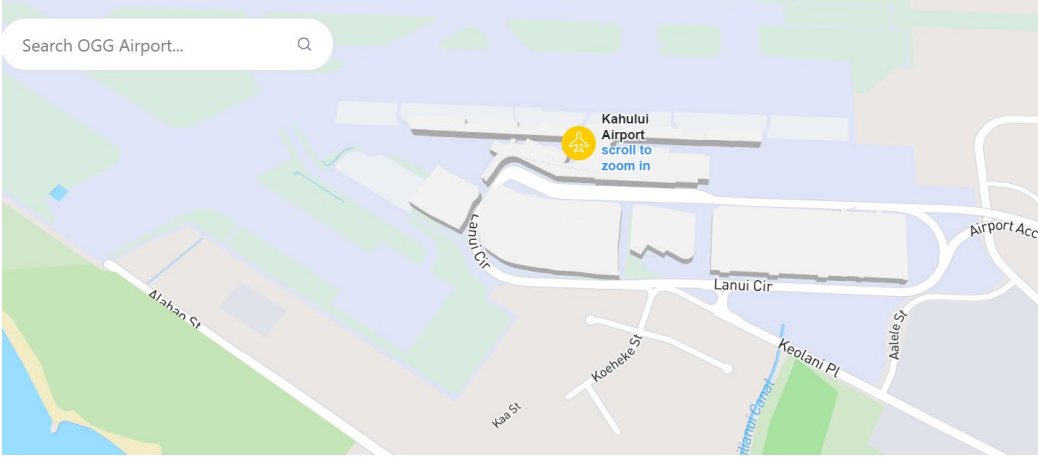

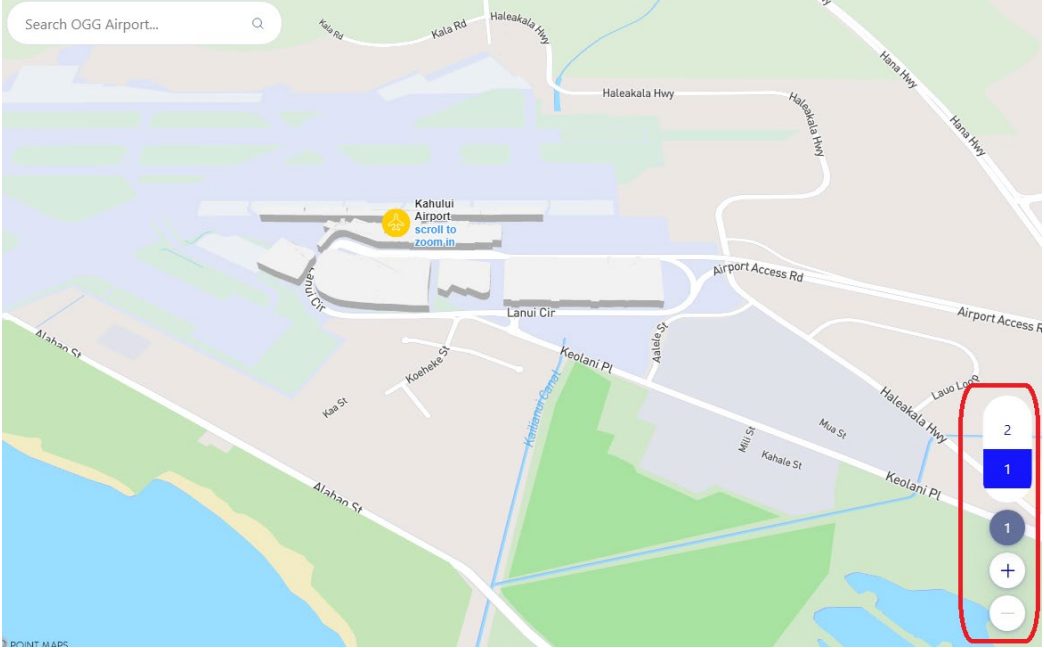

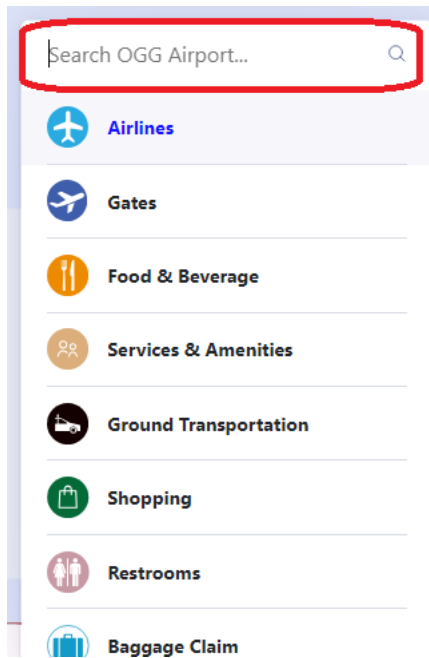

From the main view, scroll to zoom into the map.

Use the buttons at the lower right to switch between Floors and to zoom in (+) and zoom out (-)

Use the Search bar to locate your Points of Interest. You may scroll through the list or type in your search criteria.

When you locate your Point of Interest (POI), you can also prompt to get directions to/from the POI. For example, locate Gate 17 by typing in 17 in the search bar and the map will zoom in to Gate 17
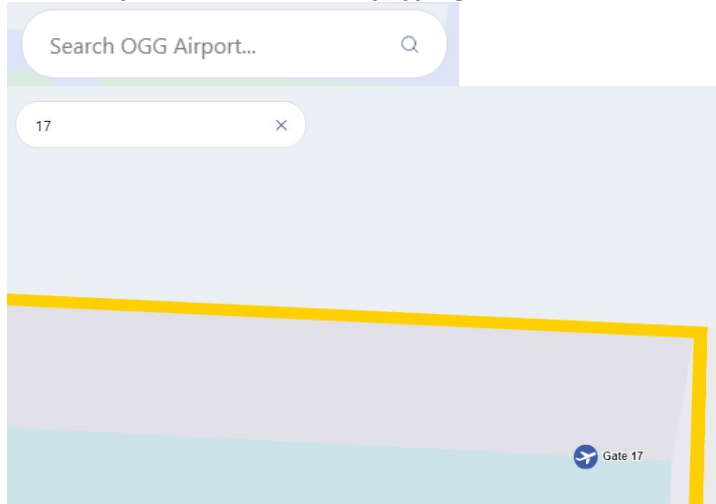

Or select in the search bar and a drop down list will appear and scroll the list to find what you want to search for. Example: select Gates below.
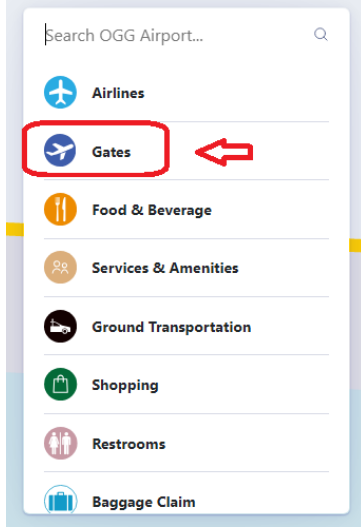

Scroll down the Gate list and select Gate 17
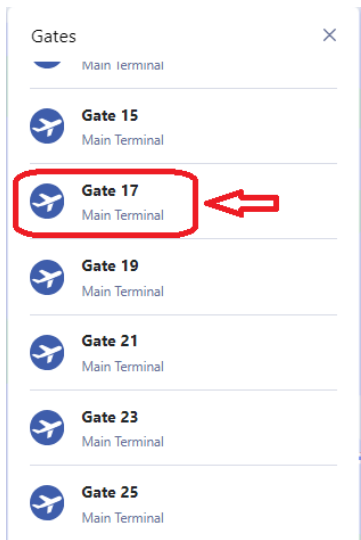

Once Gate 17 is displayed, select "Directions" or "Route from here" to begin your wayfinding experience. **"Directions" will start the wayfinding from another location. "Route from here" will be your starting point for wayfinding to another location.**
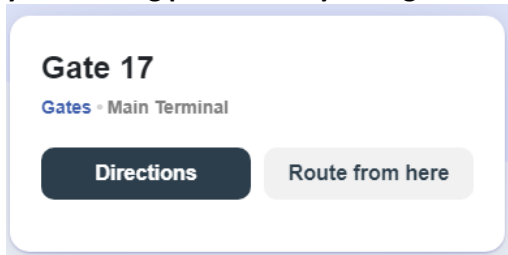

Next select the location where you want directions to or from. Scroll down the Points of Interest list or type in your choice.
